

TERM PAPER GROUP PROJECT

Title: Term Paper Group Project

Please use the Template below for the Term Paper Group Project.

Please upload file (.doc) online and also print hardcopy to submit in class

PROJECT TITLE:

GROUP NAME:

GROUP MEMBERS:

| No | Name | Metric No. | Project Role |
|----|------|------------|--------------|
| 1 | | | |
| 2 | | | |
| 3 | | | |
| 4 | | | |
| 5 | | | |

PROJECT BRIEF:

- Explain what is your project novelty about:
- Explain about the novelty – location, size, selling what service/product?
- What kind of data network the novelty use (if any)? If not network, do you have an idea what do you want to propose?
- How do you get information about the novelty?

CHAPTER 1 – Project Introduction

PART 1: Project Overview and Objectives

Project Objective

Project Description

Importance of Project

PART 2: Project Background and Description

Type of System Environment

Background with Mapping

Process Flow Chart

Description of Process Flow Chart

Existing System Diagram

PART 3: Project Analysis

Current System/ Process/Network Problems and Issues

Assessment of Situation and overview of solution

Assessment 1

CHAPTER 2 –Design

Design the architectural framework of your project. Discuss the details involve.

CHAPTER 3 – Novelty: Network Configuration, or Implementation or Simulation

Based on your design of chapter 2, provide the proof-of-novelty: either in the form of Network Configuration, Implementation & Simulation.

CHAPTER 4 – Network Management & Security

Provide details based on the results obtained in chapter 3 regarding the implication of your study to theory and practice
